We had a private candle making workshop for an hour, Caleb and Janelle were so amazing and patient in guiding us through the process. We took too long to decide on the adorable ornaments that we overstayed the duration but Caleb and Janelle were incredibly nice and did not rush us through it. Overall, it was a great experience! Highly recommend to try :)

We came here for a candle making workshop and the staff were so welcome and friendly! We got to choose our candle scent, make toppings for our candles using wax moulds, and decorate our very own candle. The studio is really pretty too! Grateful for the detailed guidance by the staff and the lovely experience 💕

I came to White Pixies with my girlfriend today, for the advanced candle making workshop and I had a really good time here. The place is very cozy which makes you feel at home. Additionally, they have very soothing music playing in the background that made the experience a lot more comforting. Furthermore, the staff were very helpful in terms of guiding us in the candle making process, as well as help us with preparations for the candle wax. Overall, I had a really good time here and would recommend others who are interested in candle making to try this place out!

We had a really good time at white pixies, the space was well lit and the staff was friendly! Quite a nice hands on experience where we got to customise our own candle with our pick of toppings/charms and colours. We also chose our favourites scents, so don't worry abt scents not suiting your taste. Would recommend for a fun and chill time!
